

## Fall Has Arrived Time To Reduce Your Watering Times

With fall weather bringing cooler nights and shorter days, EMWD reminds you that now is a great time to adjust the timer on your irrigation system.

By reducing your outdoor irrigation, you will be more likely to remain within your water budget, helping to save water and money.

EMWD also offers rebate programs on weather-based controllers that automatically adjust irrigation times based on daily weather patterns. To learn more, visit [www.emwd.org/rebates](http://www.emwd.org/rebates).

On October 16, 2020, EMWD proudly celebrates 70 years serving your community.

On behalf of our entire EMWD family, thank you for trusting us with your family's water, wastewater and recycled water needs for seven decades.

We look forward to serving you for many more generations to come.
