New water pipe to be laid under Moreno Valley's Sunnymead Boulevard

October 16, 2007 – The Press Enterprise

By Dan Lee

Work to install a new water pipe on a major Moreno Valley street is expected to begin this week after a six-month delay that has held back a multi-million-dollar beautification plan....

Water district pushes voluntary cutback

October 19, 2007 – The Press Enterprise

By Jeff Horseman

A water district serving 660,000 people in Riverside County is asking customers to cut usage by 20 gallons a day as the region grapples with severe drought and water supply problems....

Trash removed from reserve

October 20, 2007 – The Californian

By Nicole Sack

Five men and a 7-ton dump truck spread out atop a vista in the Santa Rosa Plateau Ecological Reserve on Saturday morning. It is a beautiful lookout spot, where the mountains of the Cleveland National Forest are the only thing obstructing the view of Camp Pendleton ---- and on a clear day, the ocean. A breeze pushes through the air and the sun continues to heat up as it climbs higher into the sky....

Riverside County seeks state regulation of scrap dealers' metal purchases

October 22, 2007 – The Press Enterprise

By Gregor McGavin

Six months after forming a task force to look for ways to curb thefts of copper, brass and other valuable metals, Riverside County officials say a statewide fix is needed to stop the epidemic....

Event touts San Jacinto Valley accomplishments

October 22, 2007 – The Press Enterprise

By Herbert Atienza

More resources spent fighting crime and fixing roads, the opening of the extension to Domenigoni Parkway, and moving forward with plans to build a hotel to complement the Soboba Springs golf course are among the major accomplishments heralded Monday at the Hemet/San Jacinto Valley Chamber of Commerce "State of the Valley" luncheon....

California has enough water

The trick is to conserve the valuable state resource, make wise decisions about how to use it and cut waste.

October 23, 2007 – LA Times

By Dorothy Green and Jamie Simons

For all the doom and gloom about water in California, here's a surprising truth: California has enough water to meet its needs today and tomorrow without new dams, peripheral canals or catastrophic costs. But there is a rub. It will take political will and better management....
