

## COMMITTED TO OUR WATER QUALITY

### Quality you can count on 24/7/365

*The availability of safe, clean and reliable tap water is critical to the well-being of residents and businesses in our communities. Once again, EMWD provided consistently high-quality drinking water throughout 2022. Thank you for being part of the EMWD family—we are proud to serve you. Learn more about EMWD and its services to the community at [emwd.org/newsroom](https://emwd.org/newsroom).*

## INSIDE THIS ISSUE

### Learn About Your Water Quality

Our annual Consumer Confidence Report is now available to help you learn about your tap water.

### Stay Cool and Be WaterWise

Tune up your irrigation system this summer. Learn more at [landscapesforliving.emwd.org](https://landscapesforliving.emwd.org).

### Ask EMWD

How can I lower my water bill and make my home more water efficient?

EMWD's Perris Water Filtration Plant (pictured) is one of four filtration plants serving customers in EMWD's service area.

## You Can Be Confident in EMWD's Water Supply

Each year, EMWD produces its Consumer Confidence Report, which details the source and quality of water supplies that we deliver to your home or business.

This month, we published our 2022 report, which includes the results of over 47,000 water quality tests that were received from the more than 10,000 water samples collected throughout the year.

EMWD once again met and surpassed every water quality standard established by the United States Environmental Protection Agency and the State Water Resources Control Board.

We encourage you to check out our 2022 Consumer Confidence Report and learn more about your drinking water quality at [emwd.org/ccr](http://emwd.org/ccr).

## Want to know more about the importance of your water quality report?

Visit [yoursocaltapwater.org](http://yoursocaltapwater.org) to tap in to the significance of consumer confidence reports and how these reports advance the goal of being transparent about testing results and underscore the safety of tap water.

# Did you know?

Bottled water is the single-most marked-up item at the grocery stores and is often bottled from a tap water source.

## Safety First!

EMWD once again achieved 100 percent compliance with state and federal drinking water standards, ensuring that your water is safe to drink every time you turn on the tap!

## A Great Value

Five gallons of EMWD tap water cost less than one penny.

## Smart Irrigation for How You Live

Happy Smart Irrigation Month!

July is the perfect time to use water wisely and save money on your front and backyards. EMWD offers FREE direct installation of Weather-Based Irrigation Controllers, High-Efficiency Sprinkler Nozzles and Landscape Evaluations.

Stay cool and be water wise with a summer irrigation system tune-up! Check out EMWD's landscapes rebates and services online at [landscapesforliving.emwd.org](http://landscapesforliving.emwd.org).

### Are there opportunities for rebates on devices inside of my home?

Yes! While so much of the work to reduce water use can be done outdoors, we know that many customers are also looking for rebate opportunities inside of their homes. Together, toilets and clothes washers account for approximately 45 percent of the water used inside your home. Replacement of your inefficient clothes washer or toilet may contribute to lowering your water use and may result in a lower water bill.

In partnership with SoCal WaterSmart, EMWD customers can receive rebates on qualifying toilets and washing machines. These rebates can help reduce the cost of the purchase and save you water each and every time you use them.

Please visit [emwd.org/social-watersmart](http://emwd.org/social-watersmart) to learn more and check out the list of qualifying items that can earn you money back and reduce your water use.
