

# Smart Controller Direct Install Program

Eastern Municipal Water District (EMWD) is offering a share-of-cost **Smart Controller Direct Install Program** for qualifying customers.

## **Weather-Based (Smart) Irrigation**

**Controllers** automatically adjust your irrigation schedule to account for changing weather, as well as plant and soil types.

These Smart Irrigation Controllers can help save up to 13,500 gallons of water per year, when properly programmed.

## Important Program Information

- Open to all EMWD residential customers
- Customers must own the residence
- Requires a participation fee that may be paid in 36 monthly installments
- EMWD's share-of-cost not to exceed \$270
- Participants in this program will not be eligible for the weather-based irrigation controller rebates through [socalwatersmart.com](http://socalwatersmart.com)
