Perris II Reverse Osmosis Treatment Facility

**PROJECT SUMMARY**
The Perris II Desalter, located adjacent to Eastern Municipal Water District's the existing desalters in the City of Menifee, will treat brackish (salty) groundwater to potable water standards. Perris II will produce 5.4 MGD. EMWD's desalination program allows for our communities to use of local water supplies and become less reliant on imported water.

**CURRENT STATUS:** Bid / Construction

**ESTIMATED CONSTRUCTION SCHEDULE**
- Start: Spring 2019
- Finish: Spring 2021

**PROJECT BUDGET**
- Estimated Total Project Budget: $63,428,000
- Estimated Construction Budget: $56,722,000
- Estimated Grant Percentage: 40%

**PROJECT BENEFIT**
EMWD's Desalination Program is one of several strategies EMWD is pursuing to become less reliant on imported water and move toward the goal of drought-proofing the region and providing reliability and flexibility to the area’s water supply.
