SPECIAL CONDITIONS

SC-30. Traffic Control

ADD the following paragraph to SC-30 as follows:

The contractor's traffic control procedures shall include electronic scrolling message boards, placed on either side of the construction area to warn motorists and the public of the upcoming construction. Electronic message boards shall be placed in both directions and a sufficient distance away from the construction to provide adequate warning. If multiple streets are being constructed concurrently, then multiple message boards will be required for each construction area. Message boards should be placed at least 2 weeks prior to the start of construction and remain in place until construction is complete. The contractor's bid price shall include 2 electronic scrolling message boards for each area of construction, in conjunction with any requirements of the City Encroachment Permit.
