Project Title: Pettit Regulated Pressure Zone
Project Location: Various
City: Moreno Valley
County: Riverside

Description of Nature, Purpose, and Beneficiaries of Project:

Eastern Municipal Water District (District) is proposing to implement the Pettit Regulated Pressure Zone Project (Project) located in Moreno Valley, Riverside County, California. The proposed Project will be constructed in various locations within the public rights-of-way, and is generally confined within the following boundaries: north of Cactus Avenue and south of Cottonwood Avenue, between Heacock Avenue and Lasselle Street.

The Project will improve level of service by establishing a higher pressure zone for the targeted area.

The proposed Project consists of installing approximately 1,500 linear feet of 12-inch diameter water pipeline, four (4) aboveground pressure reducing stations, and various water main line connections and abandonments.

The added pipeline will be polyvinyl chloride (PVC) water distribution pipe.

Public Agency Approving and Carrying Out Project: Eastern Municipal Water District

Exempt Status:

Statutory Exemption. (Sections 15282.k)

Reasons why project is exempt: Implementation of the proposed project would result in construction of less than one mile of pipeline. This project meets the criteria provided within CEQA Guidelines for statutory exemption §15282.k

Project Title: Pettit Regulated Pressure Zone

Project Description:
(include Location)

Subareas within the existing Moreno Pressure Zone (1680 PZ) have consistently experienced low water pressure. The targeted area, generally confined between n/o Cactus Ave. and s/o Cottonwood Ave., between Heacock Ave. and Lasselie St., in the City of Moreno Valley, will be regulated via the Pettit Pressure Zone (1764 PZ) to a new HGL at approximately 1723 ft. This project will improve water delivery pressures, fire flow deficiencies, and support new development in the vicinity. This PAR covers project costs through final design.

Tentative Completion Date: May 2017
