Attn: General Manager

Downing Construction, Inc. experienced a recent fatality on one of our projects that involved a City employed soils technician and Downing's loader. The technician attempted to take a soils compaction test immediately behind a working loader without notifying any of Downing's personnel nor the City inspector, who was also onsite at the time of the incident. No Cal/OSHA citations have been issued to date.

Re: Bid Proposal for De Anza Lift Station Force Main Project, Spec. NO. 1330W
Response to Bid Document C17-2 Contractor's Cal/OSHA Compliance History
and SIC Code

Attn: General Manager

Downing Construction, Inc. offers the following explanations for answering "Yes" to
Question #1 and #2 on the bid document referenced above.

Question #1 Response: Downing Construction, Inc. received two citations from
Cal/OSHA after reviewing our Injury & Illness Prevention Program's Heat Illness
Prevention section that was inadvertently not updated in a binder at our office located
in Redlands. The jobsite IIPP was updated and all procedures were being followed in
the field (See the Inspector's Investigation Report, page 4 of 6, referencing that the
High Heat Procedures were performed and in place). Please see the enclosed Cal/OSHA
documents listed below.

1. Document Request Sheet from DIR, Division of Occupational Safety and Health.
4. Notice of Intent to classify citation as serious.
5. Contractor's response to Notice of Intent.
7. Settlement terms.

The citations were reclassified per the settlement terms and the fines were reduced. In
addition, the binder in question was updated immediately to avoid any discrepancy in
the future. Please note that the citations were regulatory, and/or general as stated by
Cal/OSHA, and not directly related to a safety violation.
Question #2 Response: Downing Construction Inc.'s employee suffered a heart attack at the end of a work shift, which was investigated and found to be of no fault of our safety procedures and no Cal/OSHA citation was issued.

Please contact me if you have any questions.

Thank you,
