DIRECTOR ACTION BY UNANIMOUS WRITTEN CONSENT

The sole Director of Downing Construction, Inc. adopts the following resolution(s) by unanimous written consent pursuant to Corporations Code §307(b):

RESOLVED, Michelle LaVanWay is authorized to sign bids and related documents on behalf of Downing Construction, Inc.

Dated: April 27th, 2015

Randy Downing, Director
The Contractor shall construct the project under these Specifications all in conformance with the Contract Drawings listed in Section P and these Specifications.

The District reserves the right to:

A. Accept or reject any or all bids on this specification;
B. Award Contract to the lowest qualified bidder, based on the total bid price;
C. Waive any defects and informalities.

The District shall be the final authority with regard to whether a bid is responsive to the call for bids and to whether a bidder is a responsible bidder under the conditions of his bid, or for any reason.

The total contract price shall include all work, materials and equipment needed to complete the project as defined in the General Conditions, Section F. The bidder shall include costs for such other items in the most appropriate category (bid item).

**BASIS OF AWARD: Additive Bid Item(s) Not Included in Total Bid Price.**

Public Contract Code 20103.8 does not preclude the District from adding to or deducting any of the additive or deductive items after the lowest responsible bidder has been determined.

Failure to provide a cost for the additive or deductive bid items may deem your bid non-responsive.

Re: Bid Proposal for French Valley RW Pipeline Phase 1, Spec. No. 1308P
Response to Bid Document C17-2 Contractor's Cal/OSHA Compliance History
and SIC Code

Attn: General Manager

Downing Construction, Inc. offers the following explanations for answering "Yes" to Question #1 and #2 on the bid document referenced above.

**Question #1 Response:** Downing Construction, Inc. received two citations from Cal/OSHA after reviewing our Injury & Illness Prevention Program's Heat Illness Prevention section that was inadvertently not updated in a binder at our office located in Redlands. The jobsite IIPP was updated and all procedures were being followed in the field (See the Inspector's Investigation Report, page 4 of 6, referencing that the High Heat Procedures were performed and in place). Please see the enclosed Cal/OSHA documents listed below.

1. Document Request Sheet from DIR, Division of Occupational Safety and Health.
4. Notice of Intent to classify citation as serious.
5. Contractor's response to Notice of Intent.
7. Settlement terms.

The citations were reclassified per the settlement terms and the fines were reduced. In addition, the binder in question was updated immediately to avoid any discrepancy in the future. Please note that the citations were regulatory, and/or general as stated by Cal/OSHA, and not directly related to a safety violation.
Question #2 Response: Downing Construction Inc.’s employee suffered a heart attack at the end of a work shift, which was investigated and found to be of no fault of our safety procedures and **no** Cal/OSHA citation was issued.

Please contact me if you have any questions.

Thank you,
