**GENERAL PURPOSE**

Under immediate (Finance Technician I) or general (Finance Technician II) supervision, performs a variety of technical accounting support and administrative duties in the preparation, processing, and maintenance of accounting and financial records; functional areas of responsibility can include accounts payable, accounts receivable, payroll, capital asset/project accounting, inventory, remittance processing, cashiering, and cash balancing; and performs related duties, as assigned.

**DISTINGUISHING CHARACTERISTICS**

**Finance Technician I:** This is the entry-level class in the Finance Technician series. Initially under close supervision, incumbents learn and perform routine work in assigned accounting program areas. As experience is gained, assignments become more varied, complex, and difficult; close supervision and frequent review of work lessen as an incumbent demonstrates skill to perform the work independently. Positions at this level usually perform most of the duties required of the positions at the Finance Technician II level but are not expected to function at the same skill level and usually exercise less independent discretion and judgment in matters related to work procedures and methods. Work is usually supervised while in progress and fits an established structure or pattern. Exceptions or changes in procedures are explained in detail as they arise.

**Finance Technician II:** This is the fully qualified journey-level classification in the Finance Technician series. Positions at this level are distinguished from the Finance Technician I by the performance of the full range of duties as assigned, working independently, and exercising judgment and initiative. Positions at this level receive only occasional instruction or assistance as new or unusual situations arise and are fully aware of the operating procedures and policies of the work unit.

This class is distinguished from the Finance Technician III in that the latter performs the more complex work assigned to the series, and/or provides technical and functional direction over lower-level staff.

A confidential employee is an employee who is required to develop or present management positions on collective bargaining, or whose duties normally require access to confidential information.
SUPERVISION RECEIVED AND EXERCISED

Receives immediate (Finance Technician I) or general (Finance Technician II) supervision from assigned supervisory or management personnel. Exercises no direct supervision over staff.

TYPICAL DUTIES AND RESPONSIBILITIES

The duties listed below are intended only as illustrations of the various types of work that may be performed. The omission of specific statements of duties does not exclude them from the position if the work is similar, related or a logical assignment to this position.

Positions at the Finance Technician I level may perform some of these duties and responsibilities statements in a learning capacity.

- Performs a variety of routine to complex administrative and technical account support duties related to accounts payable, billing and accounts receivable, payroll, capital asset/project accounting, inventory, general accounting, payment processing, and cash balancing and/or department-specific technical account duties including posting, balancing, adjusting, and maintaining manual and computerized account and financial records according to established policies and procedures.

- Generates and assists in the preparation of a wide variety of periodic financial reports.

- Maintains a variety of ledgers, registers, and journals according to established account policies and procedures; reconciles transactions and data as directed; records changes and resolves differences; maintains the accuracy of accounting and financial records.

- Verifies, posts, and records a variety of financial transactions; prepares and maintains spreadsheets; records a variety of periodic and special financial and accounting reports.

- Reviews source documents for accuracy, receipt of necessary information, and compliance with rules, regulations, and procedures; determines proper handling for compliance.

- Assists customers, departments, and employees by providing answers and information regarding specific account information, discrepancies, general accounting procedures, and/or department-specific issues and problems; researches issues regarding specific transactions; and updates related files and departments on action items.

- None.

**PHYSICAL DEMANDS**

The physical demands described here are representative of those that must be met by employees to successfully perform the essential functions of this class. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

Must possess mobility to work in a standard office setting and use standard office equipment, including a computer; vision to read printed materials and a computer screen; and hearing and speech to communicate in person and over the telephone. This is primarily a sedentary office classification although standing in work areas and walking between work areas may be required. Finger dexterity is needed to access, enter, and retrieve data using a computer keyboard or calculator and to operate standard office equipment. Positions in this classification occasionally bend, stoop, kneel, reach, push, and pull drawers open and closed to retrieve and file information. Employees must possess the ability to lift, carry, push, and pull materials and objects averaging a weight of 25 pounds, or heavier weights, in all cases with the use of proper equipment and/or assistance from other staff.
WORK ENVIRONMENT
The work environment characteristics described here are representative of those an employee encounters while performing the essential functions of this class. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

Employees work in an office environment with moderate noise levels, controlled temperature conditions, and no direct exposure to hazardous physical substances. Employees may interact with upset staff and/or public and private representatives in interpreting and enforcing departmental policies and procedures.

FLEX REQUIREMENTS

Positions in the Finance Technician I/II class series are flexibly staffed; positions at the Finance Technician II level are normally filled by advancement from the Finance Technician I level; progression to the Finance Technician II level is dependent on (i) management affirmation that the position is performing the full range of duties assigned to the classification; (ii) satisfactory work performance; (iii) the incumbent meeting the minimum qualifications for the classification including any licenses and certifications; and (iv) management approval for progression to the Finance Technician II level.
This job description has been reviewed and approved by all levels of management in cooperation with the union (if applicable):
