GENERAL PURPOSE

Under direction, coordinates the Cross-Connection/Backflow Prevention Program to ensure compliance with state and local regulations; independently performs difficult and responsible technical and administrative work associated with specialized cross-connection and backflow prevention reports, research, billing services, and related program demands; and performs related duties as assigned.

DISTINGUISHING CHARACTERISTICS

The Cross-Connection Control Coordinator performs detailed and highly responsible work in administering and coordinating the activities of the Cross-Connection Program. Assignments require close coordination with engineers, developers, contractors, property owners and District personnel in ensuring compliance with regulatory requirements. The incumbent is responsible for monitoring, tracking, coordinating, and inspecting new and existing projects. The work requires a thorough knowledge of Cross-Connection backflow rules, regulations, policies, and procedures and the use of initiative and judgment carried out with a high degree of accuracy.

SUPERVISION RECEIVED AND EXERCISED

Receives direction from the Water Operations Supervisor. Exercises no direct supervision over staff.

TYPICAL DUTIES AND RESPONSIBILITIES

The duties listed below are intended only as illustrations of the various types of work that may be performed. The omission of specific statements of duties does not exclude them from the position if the work is similar, related or a logical assignment to this position.

- Coordinates the Cross-Connection Control and Backflow Prevention Program to ensure compliance with state and local regulations; recommends, develops and designs various program elements.
- Monitors agricultural, commercial, residential and municipal water accounts to ensure compliance with District and regulatory requirements in regards to cross-
connection control; determines, through regulatory requirements or involved departments, the type of protection and/or installation of cross-connection control.

- Investigates complaints regarding backflow installations, backflow events, and theft, and enforces compliance with relevant ordinances and regulations; writes up work orders for internal backflow issues that need additional departments’ involvement.

- Schedules and prioritizes workload and sets compliance deadlines; coordinates onsite inspections to ensure proper installation of approved devices and to ensure the need for backflow protection; schedules and coordinates activities with customers and District personnel.

- Constructs and maintains spreadsheets for reports for the District and regulatory agencies; distributes reports for outside requests from other agencies.

- Processes billing information as pertains to charges or fees assessed to customer; documents activities in automated systems.

- Represents the interests of the District at workshops, seminars, committees and outside organizations; serves as District staff representative for backflow orientation and provides training and informational meetings with District staff.

- Responds to customer requests for information in-person, by telephone and fax; schedules and quotes backflow retrofit rates and creates agreements pertaining to retrofits.

- Serves as the initial contact and will follow the project through to completion, including agreement preparation, site documentation, and ongoing communication/updates to customers and District personnel.

- Observes and complies with all District and mandated safety rules, regulations, and protocols.

- Performs other related duties as assigned.

**REQUIRED QUALIFICATIONS**

Knowledge of:

- Operations, services and activities of a cross-connection control program including characteristics of water systems, and cross connection/plumbing related devices.

- Principles and practices of program coordination and implementation.

- Typical cross-connection control system problems and prevention methods.

- Basic engineering and construction terminology.

- The District’s and mandated rules and regulations in assigned areas of responsibility.

- Policies and procedures for billing, credit and collections.

- The District’s rate structure for cross connection services.

- District and mandated safety rules, regulations, and protocols.
