GENERAL PURPOSE

Under immediate (Fleet Services Mechanic I) to general (Fleet Services Mechanic II) supervision, services, inspects, maintains, and makes minor repairs to a variety of light-, medium-, and heavy-duty vehicles and equipment; performs scheduled preventive maintenance inspections; assists higher-level technician staff in maintenance and repair duties; and performs related duties as assigned.

DISTINGUISHING CHARACTERISTICS

Fleet Services Mechanic I:  This is the entry-level classification in the Fleet Services Mechanic series. Initially under close supervision, incumbents learn and perform routine daily operations related to the fueling, servicing and maintaining of vehicles and motorized equipment. As experience is gained, assignments become more varied, complex, and difficult; close supervision and frequent review of work lessen as an incumbent demonstrates skill to perform the work independently. Positions at this level usually perform most of the duties required of the positions at the Fleet Services Mechanic II level but are not expected to function at the same skill level and usually exercise less independent discretion and judgment in matters related to work procedures and methods. Work is usually supervised while in progress and fits an established structure or pattern. Exceptions or changes in procedures are explained in detail as they arise.

Fleet Services Mechanic II:  This is the fully qualified journey-level classification in the Fleet Services Mechanic series. Positions at this level are distinguished from the Fleet Services Mechanic I level by the performance of the full range of duties as assigned, working independently, and exercising judgment and initiative. Positions at this level receive only occasional instruction or assistance as new or unusual situations arise and are fully aware of the operating procedures and policies of the work unit. Incumbents may also be assigned to assist journey-level technicians in the maintenance and repair of vehicles and equipment.

This class is distinguished from the Fleet Technician series in that the latter performs advanced diagnostics and repairs on light and heavy fleet vehicles.
SUPERVISION RECEIVED AND EXERCISED

Receives immediate supervision (Fleet Services Mechanic I) and general supervision (Fleet Services Mechanic II) from the Fleet Services Supervisor. Exercises no direct supervision over staff.

TYPICAL DUTIES AND RESPONSIBILITIES

The duties listed below are intended only as illustrations of the various types of work that may be performed. The omission of specific statements of duties does not exclude them from the position if the work is similar, related or a logical assignment to this position.

Positions at the Fleet Services Mechanic I level may exercise some of these duties and responsibilities in a learning capacity.

- Inspects, adds and/or changes fluid levels in brake, steering, and other systems; changes oil and filters, and radiator fluids.
- Inspects vehicles for operating condition and safety problems; reports problems to supervisor or mechanics.
- Performs brake repairs and overhauls, including turning drums and rotors; aligns vehicle front ends using computerized four-wheel alignment system.
- Fuels vehicles and equipment; keeps gasoline, oil, and lube services records on vehicles and equipment.
- Changes engine, transmission, differential and power take-off lubricants; checks and replaces radiator, hydraulic, and pneumatic hoses.
- Performs scheduled preventive maintenance inspections on a variety of light-medium- and heavy-duty equipment; performs 90-day truck inspections required by law.
- Changes, balances and repairs tires on vehicles and light- and heavy-duty equipment, including split-rim wheels; changes and installs bulbs, wiper blades and other simple mechanical parts; diagnoses and repairs vehicle charging systems.
- Operates compressors, cranes, steam cleaners, pneumatic and electric tools.
- Reads, interprets and works from manuals, diagrams, and written instructions.
- Drives trucks to deliver supplies and materials.
- Delivers and pickup equipment requiring a Class A license.
- Responds to service calls in the field making minor repairs and replacement of parts to vehicles and equipment.
- Maintains records and logs of servicing of vehicles and equipment.
Eastern Municipal Water District
Job Title: Fleet Services Mechanic I/II
Last Update: March 2020

Licenses/Certifications:

- **Fleet Services Mechanic I:** A valid California driver’s license, Class A, or the ability to obtain one within 6 months of date of hire, and the ability to maintain insurability under the District’s Vehicle Insurance Policy is required if performing service and making minor repairs on heavy duty vehicles.

- **Fleet Services Mechanic II:** A valid California driver’s license, Class A and the ability to maintain insurability under the District’s Vehicle Insurance Policy is required if performing service and making minor repairs on heavy-duty vehicles. All District employees required to possess a valid Class A driver’s license for the performance of their duties shall be subject to random drug and alcohol testing pursuant to District policy and federal law.
PHYSICAL DEMANDS
The physical demands described here are representative of those that must be met by employees to successfully perform the essential functions of this class. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

Must possess mobility to work in the maintenance shop and the field; strength, stamina, and mobility to perform medium to heavy physical work; to sit, stand, and walk on level, uneven, or slippery surfaces; frequently reach, twist, turn, kneel, bend, stoop, squat, crouch, grasp and make repetitive hand movement in the performance of daily duties; to climb and descend ladders, to operate varied hand and power tools, and to operate a motor vehicle and visit various District sites; and vision to inspect and operate equipment. The job involves fieldwork requiring frequent walking in operational areas to identify problems or hazards. Finger dexterity is needed to operate and repair tools and equipment. Employees must possess the ability to lift, carry, push, and pull materials and objects averaging a weight of 50 pounds or heavier weights, in all cases with the use of proper equipment and/or assistance from other staff.

WORK ENVIRONMENT
The work environment characteristics described here are representative of those an employee encounters while performing the essential functions of this class. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

Employees work in the maintenance shop and the field and are exposed to loud noise levels, cold and hot temperatures, inclement weather conditions, road hazards, vibration, confining workspace, chemicals, mechanical and/or electrical hazards, hazardous physical substances and fumes, dust and air contaminants. Employees may interact with upset staff and/or public and private representatives in interpreting and enforcing departmental policies and procedures.

Employees are subject to weekend and/or rotating shifts and 24-hour call out.

FLEX REQUIREMENTS
Positions in the Fleet Services Mechanic I/II class series are flexibly staffed; positions at the Fleet Services Mechanic II level are normally filled by advancement from the Fleet Services Mechanic I level; progression to the Maintenance Mechanic II level is dependent on (i) management affirmation that the position is performing the full range of duties assigned to the classification; (ii) satisfactory work performance; (iii) the incumbent meeting the minimum qualifications for the classification including any licenses and certifications; and (iv) management approval for progression to the Fleet Services Mechanic II level.
