GENERAL PURPOSE

Under general direction, plans, organizes, and supervises the work of personnel involved in reading, installing, maintaining, replacing, and servicing residential, commercial, and industrial water meters; and performs related duties, as assigned.

DISTINGUISHING CHARACTERISTICS

This is the full supervisory-level class in the Meter Services series that exercises independent judgment on diverse and specialized metering services with accountability and ongoing decision-making responsibilities associated with the work. Incumbents are responsible for planning, organizing, supervising, reviewing, and evaluating the work of assigned staff and performing water metering and customer service field work and for providing technical level support to the Meter Services Manager in a variety of areas. Performance of the work requires the use of independence, initiative, and discretion within established guidelines.

SUPERVISION RECEIVED AND EXERCISED

Receives general direction from the Meter Services Manager. Exercises direct supervision over technical staff.

TYPICAL DUTIES AND RESPONSIBILITIES

The duties listed below are intended only as illustrations of the various types of work that may be performed. The omission of specific statements of duties does not exclude them from the position if the work is similar, related or a logical assignment to this position.

- Participates in the selection, training, supervision, and evaluation of assigned staff; participates in the establishment of performance requirements and personal development targets, and provides technical assistance and advice to assigned staff.

- Provides day-to-day leadership and works with staff to ensure a high performance, customer service-oriented work environment which supports achieving the department’s and the District’s mission, strategic plan, objectives, and values.
Eastern Municipal Water District
Job Title: Meter Services Supervisor
Last Update: October 2019

- Assists with the development and administration of the department’s annual budget; directs the forecast of additional funds needed for staffing, consultants, contractors, equipment, materials, and supplies; directs the monitoring of and approves expenditures; directs and implements adjustments as necessary to meet changing conditions.

- Prepares and maintains a variety of records and recurring reports including, but not limited to, worksheets, labor distribution, repair detail, reading/repair schedules, preventative maintenance documents, accident reports, vehicle inspections, program documents, analytics reporting, meter testing and analysis, business process and improvements, job safety analysis, and policies and procedures.

- Plans, creates, closes, and schedules work orders; receives and responds to questions from customers; assists in quality control; reviews plans and recommends improvements; analyzes maintenance data and recommends actions; reviews and processes completed work orders; collects work/repair histories and determines scope of work; performs field inspections and investigations; recommends, schedules, and maintains preventative maintenance for large meter services and inter-agency meters.

- Oversees and responds to the most difficult customer service issues related to the area of responsibility; provides information to the public; investigates inquiries; recommends corrective actions to resolve issues.

- Plans, organizes, and conducts research and analysis regarding small and large meter testing; produces and maintains operational meter testing program and provides detailed analysis of water meter accuracy and water loss in accordance with AWWA and the Department of Water Resources rules and regulations; contributes to the annual state/federal validated water audit mandate; creates detailed data base detailing weighted accuracy, flow volumes, and percentages; researches and assembles information for preparation of records and reports; makes arithmetic or statistical calculations.

- Directs, coordinates, and oversees the inspection, installation, and repair of automated metering infrastructure (AMI) water meters; assigns route to Meter Services staff.

- Carries out District safety program; ensures subordinates follow safety policies in work methods and procedures; enforces proper safety precautions; educates employees on rules, regulations, safe work habits, and potential hazards; develops, schedules and implements job safety plans, analysis, policies, and procedures; coordinates and schedules all department safety and mandatory training.

- Attends meetings with other departments and District staff, vendors, customers, and other agency personnel; coordinates assigned services and activities with those of other divisions and outside agencies.
Eastern Municipal Water District
