GENERAL PURPOSE

Under direction, provides lead direction and training to lower-level fleet maintenance staff on an assigned shift; participates in a full range of fleet services work to diagnose, maintain, repair, and overhaul a wide variety of light- and heavy-diesel, gasoline, and natural gas-powered automobiles, trucks, and construction equipment; operates a variety of hand, power, and shop tools; and performs related duties as assigned.

DISTINGUISHING CHARACTERISTICS

This is advanced-level classification in the Fleet Services Technician series responsible for performing the most complex work assigned to the series. Incumbents regularly work on tasks which are varied and complex, requiring considerable discretion and independent judgment. Positions in the classification rely on experience and judgment to inspect, troubleshoot, diagnose, and perform major repairs and overhauls to light- and heavy-gasoline and diesel engines, work on special projects, and provide functional lead direction to lower-level employees. Assignments are given with general guidelines and incumbents are responsible for establishing objectives, timelines, and methods to deliver services. Work is typically reviewed upon completion for soundness, appropriateness, and conformity to policy and requirements.

This class is distinguished from the Fleet Services Supervisor in that the latter is the full supervisory-level class in the series with accountability for ongoing decision-making responsibilities associated with the work.

SUPERVISION RECEIVED AND EXERCISED

Receives direction from the Fleet Services Supervisor. Exercises technical and functional direction over and provides training to lower-level staff.

TYPICAL DUTIES AND RESPONSIBILITIES

The duties listed below are intended only as illustrations of the various types of work that may be performed. The omission of specific statements of duties does not exclude them from the position if the work is similar, related or a logical assignment to this position.
Eastern Municipal Water District  
Job Title: Senior Fleet Services Technician  
Last Update: March 2020

- Plans, leads, assigns, and reviews the work of assigned fleet technician staff; provides training on repair procedures; ensures work is properly completed and of high quality.

Establish, maintain, and foster positive and effective working relationships with those contacted in the course of work.

Experience:

Any combination of experience and education that provides the required knowledge and abilities is qualifying, along with the specific licenses/certifications as outlined below:

- Four (4) years of progressively responsible experience in the maintenance and repair of light and heavy vehicles and construction equipment; one (1) year of serving in a lead capacity is desirable.

Education:

- Equivalent to completion the twelfth (12th) grade, supplemented by specialized training in diesel or gasoline-powered mechanics.

Licenses/Certifications:

- A valid California driver’s license, Class A with hazmat and tank endorsements, and the ability to maintain insurability under the District’s Vehicle Insurance Policy. All District employees required to possess a valid Class A driver’s license for the performance of their duties shall be subject to random drug and alcohol testing pursuant to District policy and federal law.
Certification as a Master Light- or Heavy-Duty Truck Technician or Master Automotive Technician.
- Forklift Operators Permit.
- A California Emissions Inspector license and a State lamp and brake license are desired.

**PHYSICAL DEMANDS**

The physical demands described here are representative of those that must be met by employees to successfully perform the essential functions of this class. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

Must possess mobility to work in a workshop and in a field environment; strength, stamina, and mobility to perform medium to heavy physical work; to sit, stand, and walk on level, uneven, or slippery surfaces; frequently reach, twist, turn, kneel, bend, stoop, squat, crouch, grasp and make repetitive hand movement in the performance of daily duties; possible entry into confined spaces and the use of confined entry equipment, to climb and descend ladders, to operate varied hand and power tools, and to operate a motor vehicle and visit various District sites; and vision to inspect and operate equipment. The job involves fieldwork requiring frequent walking in operational areas to identify problems or hazards. Finger dexterity is needed to operate and repair tools and equipment. Employees must possess the ability to lift, carry, push, and pull materials and objects averaging a weight of 50 pounds or heavier weights, in all cases with the use of proper equipment and/or assistance from other staff.

**WORK ENVIRONMENT**

The work environment characteristics described here are representative of those an employee encounters while performing the essential functions of this class. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

Employees work in a workshop and in a field environment and are exposed to loud noise levels, cold and hot temperatures, inclement weather conditions, road hazards, vibration, confining workspace, chemicals, mechanical and/or electrical hazards, hazardous physical substances and fumes, dust and air contaminants. Employees may interact with upset staff and/or public and private representatives in interpreting and enforcing departmental policies and procedures.
This job description has been reviewed and approved by all levels of management in cooperation with the union (if applicable):
