GENERAL PURPOSE

Under immediate (Storekeeper I) to general (Storekeeper II) supervision, receives, stores, issues, controls and maintains an adequate inventory of materials, supplies, parts, tools and equipment used in the construction, maintenance and repair of the District's treatment, transmission, storage and distribution systems and facilities; loads and delivers materials and supplies; and performs related duties as assigned.

DISTINGUISHING CHARACTERISTICS

**Storekeeper I:** This is the entry-level classification in the Storekeeper I/II series. Initially under close supervision, incumbents learn and perform routine manual and clerical duties in the receipt, storage and issuing of materials, supplies, parts, tools and equipment from a central warehouse facility. As experience is gained, assignments become more varied, complex, and difficult; close supervision and frequent review of work lessen as an incumbent demonstrates skill to perform the work independently. Positions at this level usually perform most of the duties required of the positions at the Storekeeper II level but are not expected to function at the same skill level and usually exercise less independent discretion and judgment in matters related to work procedures and methods. Work is usually supervised while in progress and fits an established structure or pattern. Exceptions or changes in procedures are explained in detail as they arise.

**Storekeeper II:** This is the fully qualified journey-level classification in the Storekeeper series. Positions at this level are distinguished from the Storekeeper I by the performance of the full range of duties as assigned, working independently, and exercising judgment and initiative. Positions at this level receive only occasional instruction or assistance as new or unusual situations arise and are fully aware of the operating procedures and policies of the work unit.

This class is distinguished from the Senior Storekeeper in that the latter performs the more complex work assigned to the series and provides technical and functional direction over lower level staff.
SUPERVISION RECEIVED AND EXERCISED

Receives immediate (Storekeeper I) to general (Storekeeper II) supervision from assigned supervisory or management personnel. Exercises no direction supervision over staff.
