Subject: EMWD Pipeline Construction Work in San Jacinto

Dear Neighbor:

On behalf of Eastern Municipal Water District (EMWD), we would like to provide you with information on an upcoming construction project that will take place in your neighborhood in San Jacinto.

Beginning in early May, EMWD will begin work on an important pipeline project as part of our commitment to expanding groundwater facilities through our Groundwater Reliability Plus program. This pipeline project will connect four recently constructed groundwater wells to a planned centralized groundwater treatment facility near Hewitt and Evans streets in San Jacinto.

Pipeline work for this project will include work on East Evans Street, Old 2nd Street, and East 7th Street, as well as several easements on EMWD owned property in the area. All work will be done during daytime hours and field work in each section of pipeline should last several weeks. EMWD asks that you obey all traffic control measures in place to help ensure the safety of our crews and the community.

EMWD appreciates your patience as we work to provide you a safe and reliable water supply for future generations. Should you have any questions, please contact me at 951-928-3777, ext. 4219, or at pearsonk@emwd.org.

Sincerely,

Kevin Pearson
Public Affairs Officer
