The following categories (conditions of service) are to be determined for each account using the appropriate Water Rate Schedule and Improvement District:

CONSOLIDATED SCHEDULE OF RATES, FEES, AND CHARGES

Temporary Accounts

This type of service is generally temporary for water utilized during construction, grading, compaction, and/or related uses. All accounts must be metered and are shown on in the section on Construction Meter Service, formerly referred to as Schedules T and T-1.

Daily Service Charge (DSC) Component Costs

The DSC Charge is comprised of two different cost elements:

- A. Account Charge – Costs that do not vary by meter size to recover monthly meter reading, billings and customer service support.
- B. Demand Charge – Costs that vary by meter size such as installation, maintenance and replacement, help support repayment of debt service and water reliability needed to support the potential demand of the customer.

Special Conditions – Residential Customers Only

Exceptions may be granted to the charges identified above if it can be demonstrated that the volumetric usage is consistently below that of a residential meter (5/8" – 1") for a one-year period. If so demonstrated, that portion of the DSC shall be computed at the lower meter size equivalent for the "Demand Charge" in accordance with the schedule below. The Account Charge component and Meter Charge Component shall remain unchanged since the charge is not dependent on volumetric usage.

Special Conditions

Relative to the above Sewer Rate Schedules, the following “Special Conditions” will apply, in addition to EMWD Administrative Code governing the provision of Sewer Service Facilities and Service:

Sewer Equivalent Dwelling Units (Sewer EDU) as established by the District per Resolution No. 1600, as amended will be used to determine the appropriate daily/monthly service charge by multiplying the Sewer EDU by the EDU charge.

Sewer customers receiving water service from EMWD and charged Tiered Rates in Areas A101, A103, A201, A202, and A301, will be charged for sewer service based on the number of people in their household. The sewer bill will be calculated using a block factor that is multiplied by the sewer rate. For these accounts, the sewer EDU will be greater than or equal to one (1). The block factors are shown in the table below.

Block Number	Number of People in Household	Block Factor effective 1/1/21	Block Factor effective 1/1/22, 1/1/23
1	1 – 2 people	.60	No change
2	3 – 4 people	1.00	No change
3	5 – 6 people	1.25	No change
4	7 people or more	1.70	No change
