Subject: EMWD Construction Near Your Residence

Dear Neighbor:

On behalf of Eastern Municipal Water District (EMWD), we would like to offer a courtesy reminder regarding construction activities near your residence in Moreno Valley in the coming weeks.

In mid-March 2021, EMWD began work on the second of two groundwater wells along Ironwood Avenue, just across from Kevin Street. These two wells are an important part of our Perris North Groundwater Program, which will help provide long-term water quality benefits to the region.

To ensure the structural integrity of the well, EMWD will begin the final phase of drilling activities at the second groundwater well, on Saturday, April 10, 2021. **24-hour work is required.** Well drilling is anticipated to last no longer than one week.

Temporary 24-foot high sound walls and a temporary water storage tank were installed at the project site in February 2021 to help limit noise and light from the project. EMWD has sound and vibration monitors on-site to help monitor the noise emitted from well drilling, which is similar in decibels to that of a running shower or an office conversation.

Following the completion of drilling activities, EMWD will bid a second project to construct the piping, motors and treatment facilities needed to operate the well and to treat and distribute groundwater. That activity will be limited to daytime work only.

EMWD appreciates your patience and understanding as we work to complete this important project that will help provide you and your family with a safe and reliable water supply. As part of our commitment to our customers, EMWD will keep you updated on the status of this work.
