EASTERN MUNICIPAL WATER DISTRICT
SPECIFICATION NO. 1331W
WELL 205 DRILLING AND TESTING

BIDDING SHEETS

The Contractor shall construct the project under these Specifications all in conformance with the Contract Drawings listed in Section P and these Specifications.

The District reserves the right to:

A. Accept or reject any or all bids on this specification;
B. Award Contract to the lowest qualified bidder, based on the total bid price;
C. Waive any defects and informalities.

The District shall be the final authority with regard to whether a bid is responsive to the call for bids and to whether a bidder is a responsible bidder under the conditions of his bid, or for any reason.

The total contract price shall include all work, materials and equipment needed to complete the project as defined in the General Conditions, Section F. The bidder shall include costs for such other items in the most appropriate category (bid item).

BASIS OF AWARD: Additive Bid Item(s) Not Included in Total Bid Price.
Public Contract Code 20103.8(a) provides for basis of award as follows:

(a) The lowest bid shall be the lowest bid price on the base contract without consideration of the prices on the additive or deductive items.

Public Contract Code 20103.8 does not preclude the District from adding to or deducting any of the additive or deductive items after the lowest responsible bidder has been determined.

Failure to provide a cost for the additive or deductive bid items may deem your bid non-responsive.

EXPERIENCE

ZIM INDUSTRIES, INC., Fresno, CA 1993-Present
Sold all equipment to Zim Industries, Inc. and went to work as Drilling Sales Manager and Technical Drilling Supervisor.

ALL AMERICAN WATER SUPPLY, INC. 1989-1993
Formerly Senior Enterprises, Inc. Changed corporate name to All American Water Supply, Inc. and obtained an SBA loan to add additional drilling equipment and rig up the equipment obtained from Hydro-Group, Inc., as well as providing needed operating capital.

HYDRO-GROUP, INC. 1978-1989
Hydro-Group, Inc. made a decision to discontinue drilling deep wells at which time Senior Enterprises, Inc. obtained equipment plus negotiated cash payment for balance of agreement with Western Well & Pump, Inc.

WESTERN WELL & PUMP, INC. 1972-1987
Located in Colby, Kansas, with primary revenue generated from sale of agricultural irrigation wells, pumps and center pivots. Grew into an annual volume of business of $9 million with a pre-tax profit in excess of $1 million.

With the collapse of the farm economy and irrigation development in 1978, Western Well & Pump, Inc. purchased oil drilling equipment and moved into that market, which soon collapsed as well.

Left with limited operating capital, a sale of the corporation was negotiated with Hydro-Group, Inc. of Linden, New Jersey.

LAYNE-WESTERN COMPANY, INC. 1952-1972
Started as rig helper and was promoted to driller after one year. Hands-on drilling experience for 13 years, then promoted to field superintendent working out of the Kansas City offices.

After six years as field superintendent, formed own company.

2. **Company History/Profile & Number of Years of Contracting Experience:**
   Zim Industries, Inc., dba Bakersfield Well & Pump Co. (Zim) is currently in its 38th year of business and is headquartered in Fresno, California. We were incorporated in the State of California on August 7, 1979. Since April of 1993, Zim has also conducted business as Bakersfield Well & Pump Co. (d.b.a.) located in Bakersfield, California. Zim provides products and services for a wide range of water services to municipal, corporate and private farming operations. These water industry products and services include water well drilling; irrigation systems; water well pumps, motors and equipment; and concrete-lined irrigation water supply ditches.

Zim is known in the water well drilling industry for its high-quality water wells. We have a large base of highly satisfied customers due to quality of the products and services that we provide. We drill, construct and develop water wells with high specific capacities throughout the western United States. We construct straight and near sand-free production / ASR injection wells that prolong the life of the owners’ pumping equipment. Zim ensures well straightness during the drilling phase of water well construction by using the proper drill stem and by constantly monitoring any borehole deviations. We ensure near sand-free wells by matching the gravel pack to the existing formation through the use of sieve analysis during the well design phase of well construction. Zim also promotes the use of high quality materials during the construction phase of the water well project to prolong the well life. By using higher quality gravel pack material (i.e. Colorado Silica), we can construct the water well with a more round and efficient gravel pack less susceptible to closing up. By using a higher quality, larger thickness or different type of casing material (i.e. Roscoe Moss, Johnson Well Screen), we can construct the water well with casing that is less susceptible to rusting out or dissolving due to electrolysis. Where specified we ensure good water quality in the wells we
construct by performing accurate water quality testing during the aquifer zone testing phase of water well construction. Zim utilizes highly qualified personnel and highly maintained equipment managed by a management team possessing the technical knowledge and experience to properly construct any water well project. In addition, Zim has the capability to construct water wells on tight job sites and to provide sound control where necessary. Zim works with the customer and engineer to properly design the water well for each specific location. In the past, we have constructed double-cased wells, under-reamed wells, ASR injection wells, and wells with seals and blank casing to block the production of water with poor quality or containing contaminants. Zim utilizes the air reverse rotary, the conventional fluid rotary and the conventional air rotary methods to construct water wells. Zim has provided water well drilling services for the installation of potable water production / ASR injection wells with dimensions as large as 10 feet in diameter or as deep as 3000 feet in locations throughout the Western United States. We have the capability and capacity to complete projects with dimensions as wide as 10 feet in diameter or projects as deep as 5,000 feet.

In addition to water well drilling, Zim is also engaged in pump sales, service & repairs and irrigation systems sales, service & repairs for corporate and private farming operations for both existing and new agricultural developments within the Central Valley of California. Zim’s focus is to provide corporate and private farming operations with efficient irrigation and pump delivery systems designed to deliver the required GPM water flow rates needed for their tree and row crops.

NON-COLLUSION DECLARATION

TO BE EXECUTED BY BIDDER AND SUBMITTED WITH BID

The undersigned declares:

I am the [President] of [Zin Industries, Inc.], the party making the foregoing bid.

The bid is not made in the interest of, or on behalf of, any undisclosed person, partnership, company, association, organization, or corporation. The bid is genuine and not collusive or sham. The bidder has not directly or indirectly induced or solicited any other bidder to put in a false or sham bid. The bidder has not directly or indirectly colluded, conspired, connived, or agreed with any bidder or anyone else to put in a sham bid, or to refrain from bidding. The bidder has not in any manner, directly or indirectly, sought by agreement, communication, or conference with anyone to fix the bid price of the bidder or of any other bidder, or to fix any overhead, profit, or cost element of the bid price, or of that of any other bidder. All statements contained in the bid are true. The bidder has not, directly or indirectly, submitted his or her bid price or any breakdown thereof, or the contents thereof, or divulged information or data relative thereto, to any corporation, partnership, company, association, organization, bid depository, or to any member or agent thereof, to effectuate a collusive or sham bid, and has not paid, and will not pay, any person or entity for such purpose.

Any person executing this declaration on behalf of a bidder that is a corporation, partnership, joint venture, limited liability company, limited liability partnership, or any other entity, hereby represents that he or she has full power to execute, and does execute, this declaration on behalf of the bidder.

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct and that this declaration is executed on [date], at [city], [state].

IRAN CONTRACTING ACT CERTIFICATION

Pursuant to the Iran Contract Act of 2010 (Public Contract Code 2200-2208), Vendors/Bidders are ineligible to bid on or submit a proposal for any contract with a public entity for goods or services of one million dollars ($1,000,000) or more if the Vendor/Bidder engages in investment activities in Iran.

MUST BE SUBMITTED WITH BID PROPOSAL IF BID AMOUNT IS $1,000,000 OR MORE

Prior to bidding on, submitting a proposal, or executing a contract or renewal for a public entity contract for goods or services of $1,000,000 or more, a vendor must either: a) certify it is not on the current list of persons engaged in investment activities in Iran created by the California Department of General Services (“DGS”) pursuant to Public Contract Code section 2203(b) and is not a financial institution extending $20,000,000 or more in credit to another person, for 45 days or more, if that other person will use the credit to provide goods or services in the energy sector in Iran and is identified on the current list of persons engaged in investment activities in Iran created by DGS; or b) demonstrate it has been exempted from the certification requirement for that solicitation or contract pursuant to Public Contract Code section 2203(c) or (d).

To comply with this requirement, please insert your vendor or financial institution name and Federal ID Number (if available) and complete one of the options below. Please note: California law establishes penalties for providing false certifications, including civil penalties equal to the greater of $250,000 or twice the amount of the contract for which the false certification was made, contract termination, and three-year ineligibility to bid on contracts. (Pub. Cont. Code § 2205.)

OPTION #1 - CERTIFICATION

I, the official named below, certify I am duly authorized to execute this certification on behalf of the vendor/financial institution identified below, and the vendor/financial institution identified below is not on the current list of persons engaged in investment activities in Iran created by DGS and is not a financial institution extending twenty million dollars ($20,000,000) or more in credit to another person/vendor, for 45 days or more, if that other person/vendor will use the credit to provide goods or services in the energy sector in Iran and is identified on the current list of persons engaged in investment activities in Iran created by DGS.

I certify (or declare) under penalty of perjury under the laws of the State of California that the foregoing is true and correct.

Subject: OSHA Incidents Explanation

To Whom It May Concern;

Zim Industries, Inc. strives to continuously provide a safe environment for our employees and at all our jobsites. Some of the ways we work to achieve a safe work environment and a culture of safety is through a safety program that engages the employee, which includes daily JSA’s submitted daily at each site, regular tailgate meetings on site as well as weekly companywide safety meetings, recognition programs that reward employees for safe behavior and disciplinary programs that are structured to identify those not working safely and modify their behavior through disciplinary action, regular employee safety trainings and multiple safety certification programs including crane operators, forklift drivers, and certified fall protection trained, as well as other various employee focused safety measures. Additionally, we have created a culture with strong management involvement and accountability within our safety program which is achieved partially through bi-weekly management safety meetings where safety policies are continuously monitored and enhanced as well as all incident and near misses are evaluated and discussed. Additionally, we have a dedicated safety manager on the Zim management team.

We appreciate the opportunity you are extending to review our past OSHA incidents for the past 7 years. In 2012 we received 1 serious violation and 3 “other” classified violations from Cal OSHA. The serious violation related to an incident where an employee was cutting a well cap using a torch and the well ignited. The serious violation was in for the reason of allowing an employee to have an ignition source near flammable vapors. We were able to demonstrate to Cal OSHA all mitigation efforts we made prior to incident, which resulted in a minimal financial penalty for this serious violation. Additionally, since the incident we have completed further abatement efforts which have included additional testing and training methods for employees working near flammable sources.

The 3 “other” classified citations were related to an incident where an employee violated Zim Industries forklift operating rules and was injured. The violations were related to late reporting of incident to OSHA, employee not being able to answer questions on heat illness despite Zim provided training, and allowing an employee to place body parts in areas of forklift that could allow injury. Zim has taken additional action and training to further prevent these issues from reoccurring, which include training to management and employees on timely reporting of incidents, additional training on heat illness that now includes testing of employees to show they comprehend and understand information they were trained on and lastly continued and additional training on safe forklift operation.

The two above referenced incident in 2012 are the only serious incidents per Cal/OSHA that we have had in the past 10 years.

We hope that we have conveyed to you that we have safety precautions and training programs in place and are constantly re-evaluating and enhancing our safety program. We work with a safety consultant on, at minimum, a yearly basis, to evaluate the program and identify further areas where we can improve. Our workload at Zim Industries is currently increasing and we continue to improve our safety program.

Sincerely,

Tina Daniel

POWER OF ATTORNEY

KNOW ALL BY THESE PRESENTS, That THE GUARANTEE COMPANY OF NORTH AMERICA USA, a corporation organized and existing under the laws of the State of Michigan, having its principal office in Southfield, Michigan, does hereby constitute and appoint

Steven P. Edwards, Cody Lyman, Lyn Genito, Bonnie Gonzalez
Alliant Insurance Services, Inc.

its true and lawful attorney(s)-in-fact to execute, seal and deliver for and on its behalf as surety, any and all bonds and undertakings, contracts of indemnity and other writings obligatory in the nature thereof, which are or may be allowed, required or permitted by law, statute, rule, regulation, contract or otherwise.

The execution of such instrument(s) in pursuance of these presents, shall be as binding upon THE GUARANTEE COMPANY OF NORTH AMERICA USA as fully and amply, to all intents and purposes, as if the same had been duly executed and acknowledged by its regularly elected officers at the principal office.

The Power of Attorney is executed and may be certified so, and may be revoked, pursuant to and by authority of Article IX, Section 9.03 of the By-Laws adopted by the Board of Directors of THE GUARANTEE COMPANY OF NORTH AMERICA USA at a meeting held on the 31st day of December, 2003. The President, or any Vice President, acting with any Secretary or Assistant Secretary, shall have power and authority:

1. To appoint Attorney(s)-in-fact, and to authorize them to execute on behalf of the Company, and attach the Seal of the Company thereto, bonds and undertakings, contracts of indemnity and other writings obligatory in the nature thereof; and

2. To revoke, at any time, any such Attorney-in-fact and revoke the authority given, except as provided below

3. In connection with obligations in favor of the Florida Department of Transportation only, it is agreed that the power and authority hereby given to the Attorney-in-Fact Includes any and all consents for the release of retained percentages and/or final estimates on engineering and construction contracts required by the State of Florida Department of Transportation. It is fully understood that consenting to the State of Florida Department of Transportation making payment of the final estimate to the Contractor and/or its assignee, shall not relieve this surety company of any of its obligations under its bond.

4. In connection with obligations in favor of the Kentucky Department of Highways only, it is agreed that the power and authority hereby given to the Attorney-in-Fact cannot be modified or revoked unless prior written personal notice of such intent has been given to the Commissioner – Department of Highways of the Commonwealth of Kentucky at least thirty (30) days prior to the modification or revocation.

Further, this Power of Attorney is signed and sealed by facsimile pursuant to resolution of the Board of Directors of the Company adopted at a meeting duly called and held on the 6th day of December 2011, of which the following is a true excerpt:

RESOLVED that the signature of any authorized officer and the seal of the Company may be affixed by facsimile to any Power of Attorney or certification thereof authorizing the execution and delivery of any bond, undertaking, contracts of indemnity and other writings obligatory in the nature thereof, and such signature and seal when so used shall have the same force and effect as though manually affixed.
